

## Did You Receive a Recycling Cart?

In some communities, Rumpke is exchanging the red recycling bins with carts that can hold three times as much recyclables. If you received one of these carts, please refer to the information below.

### Why did I receive this cart?

Rumpke will be collecting your recyclables every other week with a truck that uses an automated arm to empty the new cart. This system allows for a cleaner, more efficient and safer service, while allowing your family to recycle more.

### How do I use the cart?

Please follow these simple steps when setting your cart at the curb every other week:

- Face the recycling cart toward the street (wheels away from the street).
- Position the cart within two feet of the curb.
- Avoid placing the cart near a parked car or mailbox. Keep a four foot distance between your cart and another object.

### When will my recycling be collected?

Rumpke has mailed a copy of your new, every-other-week recycling collection schedule. If you did not receive this schedule, please email [southern.market@rumpke.com](mailto:southern.market@rumpke.com) your service address or call (800) 678-6753.

### What should I put in the cart?

Please fill your cart with the recyclables listed below. There is no need to separate materials or remove labels.

- |                                   |                                       |
|-----------------------------------|---------------------------------------|
| Plastic bottles and jugs          | Glass jars and bottles                |
| Aluminum and metal cans           | Magazines and catalogs                |
| Cereal and snack boxes            | Office and computer paper             |
| Cardboard (flattened to 2'x3')    | Clean pizza boxes (no food or grease) |
| Newspaper with inserts            | Junk mail and phone books             |
| Empty aerosol cans (tips removed) |                                       |

### What happens to my recyclables?

Rumpke has implemented the best technology available to make recycling easy, efficient and economical. Your recyclables will be sorted at Rumpke Recycling and sent to manufacturers for use in new products. To learn more about this process, please visit [www.rumpkecleanandgreen.com](http://www.rumpkecleanandgreen.com).
